

Course Description of Finance Program

Foundation Courses

ICMA 100	Foundation Mathematics	0
Prerequisites: Placement test Expressions and equations; linear functions; polynomials and nonlinear functions; radical and rational functions; the data analysis		
ICMA 101	Precalculus	0
Prerequisites: Placement test Functions and graphs; polynomial functions; rational functions; exponential functions; logarithmic functions; trigonometry; unit circle; trigonometric identities; complex numbers		
ICME 101	Foundation English: Communication Skills	0
Prerequisites: Placement test A remedial course preparing students to use communicative and academic English at a level suitable for entering the English Studies I: The Writer's Toolkit course		

General Education Courses English Communication

ICGC 104	English Studies I: The Writer's Toolkit	4
Prerequisites: Placement Writing Test An introduction to the academic writing process through the development of the writer's voice through sentencing, structure, and rhetorical devices; focus on strategies for using and integrating researched sources; methods to compose well-structured essays based on themes relevant to the world today		
ICGC 105	English Studies II: The Writer's Voice	4
Prerequisites: Placement Writing Test or ICGC 104 English Studies I: The Writer's Toolkit The integration of skills in academic research and writing to analyze and create persuasive compositions; techniques to identify strengths and weaknesses in argument; development of students' knowledge and preconceptions of global issues through a progressive series of essays and journal assignments		

ICGC 106	English Studies III: Public Speaking	4
Prerequisites: ICGC 105 English Studies II: The Writer's Voice Fundamentals of key skills for confident and effective public speaking through a series of prepared and unprepared speeches; introduction and application of techniques to inform/persuade audiences; utilization of the Writer's Toolkit (English Studies I) and the Writer's Voice (English Studies II) to create and deliver speeches to a professional standard		
ICGC 221	English Studies IV: The World of English - Global Realities	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An exploration and a critical analysis of key texts on poetry, literature, and legislative documents in order to understand the complexity and challenges of the world we live in; themes encouraging students to consider values, human rights and government; class discussions, journal writing, and presentation activities to demonstrate how students can contribute to the betterment of society		
ICGC 222	English Studies IV: The World of English - Literary Analysis	2
Prerequisites: ICGC 106 English Studies III: Public Speaking A review of literary works from selected literary genres; an exploration of how literature informs our perceptions of the world by way of analytical and critical thinking; utilising scaffolding of strategies for students to understand the function of a variety of literary forms		
ICGC 223	English Studies IV: The World of English - Creative Writing	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An examination of fiction, poetry, drama, and media production through readings, speeches, and films; comparisons of writing in different genres; creation of a work of publishable quality by means of the consideration of audience and genre		
ICGC 224	English Studies IV: The World of English - Advanced Oral Communication	2
Prerequisites: ICGC 106 English Studies III: Public Speaking Theories of persuasion, non-verbal techniques, and voice control for advanced presenters; strategies to develop high levels of voice control and expressions; activities including debates, presentations, and occasional speeches; the development of students' abilities to express themselves confidently in a variety of academic and professional environments through impromptu and prepared speeches		
ICGC 226	English Studies IV: The World of English - Literature Into Film	2
Prerequisites: ICGC 106 English Studies III: Public Speaking		

An examination of the technical aspects of translating literature into film; an exploration of the interplay between literature and films through an analysis of literary works in their film versions; an exploration of the challenges merging both mediums		
ICGC 228	English Studies IV: The World of English - Language and Culture	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An examination of the interplay between language and culture; a critical exploration of the global spread of the English language with a focus on the English culture coming out of the Global South		
ICGC 230	English Studies IV: The World of English - First and Second Language Acquisition	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An exploration of how children develop their first language; comparing and contrasting of the second language development; theories of language development from behaviorism to more recent cognitive and functional approaches; the implications and applications of theories		
ICGC 231	English Studies IV: The World of English - Poetr	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An in-depth study of poetry, including metrics, forms, themes, ethnic voices, throughout history; an evaluation of poetry from different genres through discussions, workshops and research		
ICGC 232	English Studies IV: The World of English - The Short Story and the Novel	2
Prerequisites: ICGC 106 English Studies III: Public Speaking A study of elements of fictions in short stories and novels through class workshops on characters, dialogue, plot and atmosphere; class discussions to analyze the effect of historical and social developments on selected themes		
ICGC 233	English Studies IV: The World of English - Drama	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An exploration of ways to understand and appreciate drama by reading, watching, and analyzing theatrical performances; fundamentals of theatrical production and stage performance		
ICGC 234	English Studies IV: The World of English - Literary Non-fiction	2
Prerequisites: ICGC 106 English Studies III: Public Speaking An exploration of literary nonfiction, a flourishing genre of writing a step away from academic work; reading of compelling, informative, and insightful but also entertaining, imaginative, and risky		

nonfiction work; overview of various techniques utilized within this field of writing and media; analysis and response to a variety of texts		
ICGC 235	English Studies IV: The World of English - Writing for Research	2
Prerequisites: ICGC 106 English Studies III: Public Speaking A student-centric approach to developing research writing skills; an overview of the conventions of the world of research with an emphasis on academic honesty and academic style; use of sample papers to provide students with models to prepare effective abstracts, literature reviews, research paper outlines and short academic articles		

MU Literacy

ICGB 101	Project Management for Impacts	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; the application of the Project Management Bodies of Knowledge (PMBOK) and skills; the management of social service projects; Social impact assessments aligning with Sustainable Development Goals (SDGs) and other frameworks		
ICGB 108	Event for Good	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; exploration of various methods and strategies for organizing events that drive positive impact for communities; organizing an event focusing on community engagement, fundraising, or others with a focus on social outcomes or community-focused objective		
ICGN 139	Scientific Inquiry and the Community	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; applying process of science discovery to authentic issues in the local community through observation or experiment; collaborate with peers in findings; summarizing and reporting to local stakeholders		
ICGS 169	Learning by Doing	2
Prerequisites: None		

Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; social work, ethical principles and values in social work, roles and settings in social work practice, collaborative approaches in social work, SDGs and their interconnectedness, analyzing global challenges addressed by the SDGs, partnerships with local communities for SDG initiatives		
ICGS 171	Digital Campaign for Gender Issues	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; gender inequalities and gender-based violence in society; gender activism & technologies; working with local communities to raise awareness of gender violence and abuse; use of social media to condemn violent acts; raising awareness of human rights & equality; organizing collaborative work and discovering creative solution to gender issues; use of social media to offer solutions to the needs of the community		
ICGS 172	Service Learning - Making Change	4
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; exploring the nature of change and resistance in human society and across several disciplines such as philosophy, psychology, political science, sociology, and business; reviewing case studies about how change is initiated, implemented, resisted, and achieved; challenging students through projects to identify a need for change, and to devise a plan and implement it		
ICGS 173	Service Learning - Campaigning for a Cause	4
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; research, analyse, evaluate, present and produce media campaigns for selected community / Non-Governmental Organizations / Charitable Organization(s)		
ICGS 175	Social Innovation and Sustainability	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; exploring social innovation and sustainability principles, focusing on sustainable ecosystems, ethical decision-making, effective communication, and collaboration. Engaging in project-based learning to address global challenges, promoting responsible citizenship and leadership skills. Applying the 4Cs of 21st-century education: Critical		

thinking, Communication, Collaboration, and Creativity. Analyzing ethical theories and frameworks, such as utilitarianism and deontological ethics, for moral decision-making. Utilizing communication theories and models, like the Shannon-Weaver model and Monroe's Motivated Sequence, for clear and persuasive communication. Highlighting team dynamics and conflict resolution for effective collaboration. Encouraging creative problem-solving aligned with the Sustainable Development Goals (SDGs). Preparing purposeful presentations and working as cohesive team members for sustainable development

ICGS 176	Sustainable Cooking	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; student-led community projects promoting importance of sustainability in the food system; sustainable food choices and cooking; fundamental science in cooking; collaborative work to identify sustainable issues in culinary food production; students design creative solutions aligning with needs of the community; promote sustainable cooking and food consumption		
ICGS 177	Social Innovation: Empowering Sustainable Communities	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; exploring the dynamics of social change through innovation, based on frameworks like Asset-Based Community Development and the Social Capital theory, focusing on ethical decision-making, human rights, and community empowerment. Engaging with local communities to co-create sustainable solutions using Participatory Action Research, fostering responsible citizenship and ethical leadership. Integrating critical thinking and communication to address social challenges, promoting collaboration and creativity in line with the Sustainable Development Goals (SDGs)		
ICGT 107	Innovation: Inside Out	2
Prerequisites: None Develop self-awareness as a MAHIDOL person; application of the university's motto, philosophy, and core values to benefit the community; community-based projects course incorporating fundamentals of design thinking; empathy-building techniques; user-centered problem statements formulation; innovative solutions, design thinking tools; concept-to-prototype		

Health Literacy

ICGH 136	Sound & Soul: A Journey of Music, Emotion, and Well-being	2
Prerequisites: None Discovering how music can guide emotional states, fostering relaxation, motivation, and creativity; exploring how music interacts with our emotions and sound's power in emotional expression and regulation; extending to the cultural influences that shape our perceptions of beauty in music as well as discussing techniques for incorporating music into our lives to cultivate emotional well-being and navigating different genres and styles for a richer experience of ourselves and our environment		
ICGH 143	Flowers and Fragrances for Health	2
Prerequisites: None Introduction to the scientific and cultural aspects of floral fragrances for health benefits; exploring sustainable perfume industry and traditional essential oil extraction for medicinal purposes; significance of flowers in human society; floral composition, floral aesthetics, aromatherapy and how these relate to human mental and physical health		
ICGN 135	Personal Health and Well being	2
Prerequisites: None Understanding the health as a continuous process and can be changed at any time depending on the choices we make; exploring the current challenges facing young people of today; evaluating on how they affect health and healthful behavior; what individuals can do to navigate these challenges to arrive at their goals for the future		
ICGP 101	American Flag Football	1
Prerequisites: None A ball based sport course emphasizing techniques, non-contact game play, including dodging, throwing, and catching and development of teamwork management, communication, and terminology		
ICGP 102	Badminton	1
Prerequisites: None A racket based sport course stressing technique, strategies, grip, serving, positioning and movement, game play in both singles and doubles		
ICGP 103	Basketball	1
Prerequisites: None		

A ball based sport course emphasizing attentiveness, dribbling, passing, shooting, rebounding, ball control, game play, and development of game strategies		
ICGP 104	Body Fitness	1
Prerequisites: None A comprehensive course in one or more exercise techniques: strength/resistance, cardio, plyometric, stretching, high-intensity interval training, and calisthenics; to maintain health and wellness		
ICGP 105	Cycling	1
Prerequisites: None A course designed on cycling instruction for safety, fitness, riding techniques, posture, communication, knowledge of equipment and hazards, for recreational and commuter cycling		
ICGP 106	Discover Dance	1
Prerequisites: None A dance based course of current forms and techniques in one or more categories: African/Jazz, Worldwide Dances/Latin Dances, Professional Performance Dance, Modern Dance, Hip-hop/Funk		
ICGP 107	Golf	1
Prerequisites: None A club based game course designed on developing correct grip, stance, posture, swing, and knowledge of equipment, rules, regulations, and etiquette		
ICGP 108	Mind and Body	1
Prerequisites: None A course stressing meditation postures, techniques, movement, and breathing to achieve positive mental state		
ICGP 109	Selected Topics in Sports	1
Prerequisites: None Learning concepts, rules and strategies through planned and structured movements by way of sport or activity to enhance a healthy lifestyle		
ICGP 110	Self Defense (Striking)	1
Prerequisites: None		

External martial arts (striking) course emphasizing hard physical impact and exertion, muscular strength and tension, maximizing speed and power, through body coordination		
ICGP 111	Self Defense (Grappling)	1
Prerequisites: None Internal martial arts (grappling) course stressing timing, awareness, precision, and techniques, using body leverage for throws, take downs, pins, and submissions		
ICGP 112	Soccer	1
Prerequisites: None A ball based sport course stressing alertness, ball control, including dribbling, passing, trapping, shooting, ball movement, game play, and development of strategies through drills and competitive play		
ICGP 113	Social Dance	1
Prerequisites: None A dance based social sport or activity course of choreographed movements, styles and regulations from International Ballroom (Standard) and International Latin dances		
ICGP 114	Swimming	1
Prerequisites: None A water based sport course stressing swimming techniques, breathing, and knowledge of buoyancy, propulsion, and water safety		
ICGP 115	Tennis	1
Prerequisites: None A racket based sport course of techniques, strategy, grip, serve, game play, ball tracking, timing, shot control, through drills, live ball hitting sessions, and competition		
ICGP 116	Volleyball	1
Prerequisites: None A ball sport course emphasizing passing, setting, serving, developing strategies, positions, game play, teamwork management, and communication		
ICGP 118	Health and Wellness	2
Prerequisites: None Wellness design for a lifelong healthy lifestyles; basic principles of achieving physical, emotional, intellectual, environmental, social and spiritual well being		

ICGP 119	Mindful Food and Well-being	2
Prerequisites: None Explore food and culinary trends, food choices, and the concept of mindful food and eating; fundamental relationships between food and well-being; food products and services for consumers in various demographics; food products and food service features that emphasise the concept of mindful food and eating		
ICGP 120	Mind and Body: Navigating the Interplay of Brain, Behavior, and Well-being	2
Prerequisites: None The relationship between psychology and health; the influence of psychological factors on physical well-being; Exploration of how brain, thoughts, emotions, and behaviours impact overall health outcomes; Current knowledge in sleep, gut-brain connection on health and well-being; The integration of theory, research, and practical applications of psychological principles to promote health and wellness		
ICGS 121	Abnormal Colleagues: how do I make this work?	4
Prerequisites: None The stigma of psychological issues; the fear of the workplace gossips and job security; an avoidance of getting treatment and counseling; a recognition of various disorders and devising strategies to effectively communicate and work with people; improving the workplace productivity and relationships		
ICGS 126	Introduction to Psychology	4
Prerequisites: None Human behaviour and mental functioning; the nervous system; consciousness; sensation and perception; psychogenetic, life-span development; thinking, memory, language, conditioning and learning, motivation, personality, and stress		
ICGS 155	Pathway to Purpose: Life Design and Self-Exploration	4
Prerequisites: None Assessment of personal strengths, weaknesses, and areas for improvement; individual values, beliefs, and life goals; goal setting; self-awareness and emotional intelligence; life design		
ICGS 164	Positive Psychology	2
Prerequisites: None A practical introduction to the study of human flourishing and well-being; help students thrive using Positive Psychology principles including the PERMA model of well-being; develop a greater		

understanding of positive emotions, engagement and flow, positive relationships, meaning and achievement; individual application of research findings via well-being project		
ICGS 178	Unmasking Human Behaviour: Exploring Psychological Truths about Behaviour	2
Prerequisites: None Introduction to the psychological principles and the importance of evidence-based thinking; Examination of current research on memory, perception, personality, mental illness, stereotype, prejudice, and social behaviour to debunk common myths and misconceptions about human behaviour		
ICGS 179	Health and Society	2
Prerequisites: None Exploring the concept of health across the historical periods; history of disease and origins of medicine; epidemics in the ancient societies; social welfare and the state; contemporary epidemics and the impact on society, state, and people, WHO and the role in the promotion of health		
ICLL 100	Self Development	2
Prerequisites: None Life skills for 21st century workplace through learning or training activities in various topics including creativity, growth mindset, leadership, and emotional intelligence or other selected personal development activities approved by the academic advisor and Curriculum Administrative Committee		

Science & Environment Literacy

ICGH 131	Unraveling the Anthropocene: A Philosophical Critique of Earth's Shifts and Humanity's Roles	2
Prerequisites: None Exploring the Anthropocene through the lens of philosophy of science and technology, scrutinizing the profound transformations on our planet and within societies; analyzing scientific advancements and technological innovations' roles in propelling this epochal shift, delving into the intricate interplay between human agency and environmental consequences; challenging conventional paradigms of development and progress through critical analysis, interrogating underlying assumptions that led to this critical juncture		
ICGH 142	Fantasy Literature's Environmental Message	2

Prerequisites: None An overview of the science of ecology; fiction analysis; an overview of the fantasy fiction subgenre; close reading of fantasy novels and short stories to recognize ecological realities and environmental messages; applying through personal reflection, through activities that promote the health of the environment, and through creative work		
ICGH 144	A Candle in the Dark: How to Tell Fact from Fiction	2
Prerequisites: None Rationalism and the scientific method; scientific awareness for decision-making; science vs. pseudoscience; supernaturalism and creationism; charlatanism and quackery; magical thinking and superstitions; conspiracy theories and fake news; fact-checking and logical fallacies		
ICGN 105	Ecology, Ecosystems and Socio-Economics in Southeast Asia	4
Prerequisites: None Human impacts on Southeast Asian ecology; human impacts on Southeast Asian's biodiversity and natural resources; fundamental ecological and resource management principles; current sustainable development issues; sustainable development practices for Southeast Asia		
ICGN 107	The Chemistry of Everyday Life	4
Prerequisites: None Portable electronics; the air we breathe; radiation from the sun; climate change; energy from combustion; energy from alternative sources; water; polymers and plastics; nutrition; health and medicine; genes and life		
ICGN 108	Essentials of Culinary Science for Food Business	4
Prerequisites: None Changes during preparation, heating, and storage of raw materials and of finished products, foodservice and commercial packaged food industries; chemical, sensory, and nutritional natures of food, food safety concepts, changing trends and interests, legal requirements of food establishment		
ICGN 111	Physics for CEO	4
Prerequisites: None Basic concepts of physics impacting individuals and society on a daily basis: physical quantities, Newtonian mechanics and dynamics, energy and heat, electricity and magnetism, light and sound, and the electromagnetic spectrum		
ICGN 113	Plants, People and Poisons	4

Prerequisites: None The plant world; the way plants grow and reproduce; modern technologies used for improving agricultural methods; the basics of plant biology; the distinctions among major groups of plants; the social implications of plant use and abuse		
ICGN 114	The Scientific Approach and Society	4
Prerequisites: None Scientific literacy; the process of science discovery; verification, its limitation, and the influence in various disciplines; human and animal research ethics; the critical analysis of current scientific articles; the life cycle of scientific knowledge; modeling in science		
ICGN 115	Human Evolution, Diversity and Health	4
Prerequisites: None Changing modern society; human ability; human body; human distinctiveness; human diversity; human evolution; human health; human origins; primate diversity; scientific advancements		
ICGN 116	Understanding and Visualizing Data	4
Prerequisites: None An introduction to data analytics; roles and examples of the data-driven decision making; technology landscape; data kinds and types; data sources and collection techniques; data storage and standard formats; data processing workflow; summary from data; different types of visualization; data visualization tools		
ICGN 119	Computer Essentials	4
Prerequisites: None Developing the digital literacy relating to the computer literacy and the information literacy; the computer hardware and its general functions; the operating systems; software packages and their daily use; computer security; the ethical use of the intellectual property		
ICGN 123	The Earth's Dynamic Structure	4
Prerequisites: None Introducing fundamental concepts and applying general geology at the beginning level; basic concepts of physical geology, emphasizing on surficial and deep earth processes, including minerals; rocks and their formations, crustal deformation, plate tectonics; weathering and erosion, formation of landscapes, geological resources and environmental geology		
ICGN 124	Climate Change and Human Society	4
Prerequisites: None		

Human activities and the global climate; consequences for human society; consequences for the essential life support systems; perspectives on human health and diseases; adapting to global climate change; mitigating global climate change; an optional field visit included		
ICGN 126	Plant Society	2
Prerequisites: None People interacting with the plant and fungal worlds; differences among cultures and the indigenous uses of medicinal, textile and food plants; the benefits, problems and social implications of their use; hands-on experiences with techniques and methods used by field scientists		
ICGN 127	Practical Mathematics	2
Prerequisites: None Fibonacci numbers and the golden ratio, voting and election, data interpretation, probability, cryptography, financial mathematics		
ICGN 128	Climate Emergency, Biodiversity Crisis, and Humanity at Risk	2
Prerequisites: None Anthropogenic activities; biodiversity crisis; biodiversity loss; biological diversity; climate change; climate crisis; climate emergency; ecosystem functions; harmful and unsustainable practices; humanity at risk; mitigation and adaptation; threats, impacts and consequences		
ICGN 129	Programming for Problem Solving	4
Prerequisites: None Influence and impact of computer science on everyday life and society; the problem solving process in programming: abstraction, problem decomposition, algorithms; programming basic; privacy, ethical, and legal issues related to the software development		
ICGN 130	Cryptography: The Science of Making and Breaking Codes	2
Prerequisites: None Classical cryptography; cryptosystems; the shift cipher, the substitution cipher, the Hill cipher, the permutation cipher, the stream ciphers; the RSA encryption; cryptanalysis		
ICGN 134	Introduction to Artificial Intelligence	2
Prerequisites: None The artificial intelligence terminology; machine learning types and techniques; guidelines for building the machine learning model; neural networks; an evaluation in the AI system; the real-		

world artificial intelligence; the future trends of the artificial intelligence; dangers and threats of the artificial intelligence		
ICGN 136	Creator Workshop	2
Prerequisites: None Sustainable energy usage and responsible production, Design thinking and problem-solving with 3D designing and fabrication, Finite Element Analysis, Community engagement via I-fix-it project to restore broken appliances obtained from communities		
ICGN 137	Star Wanderer	2
Prerequisites: None Basic ideas of sky observations since the ancient time of humanity; motion of the sky; cycles of the Sun and Moon; development of tools used in sky observations; the progress of human understanding of the universe; the impact of the scientific method on astronomical observation; the Earth & Moon; the Solar System; the lifecycle of stars; the Milky way; modern sky survey		
ICGN 138	Cosmetics Chemistry	2
Prerequisites: None Chemistry of cosmetics products; basic science behind cosmetics and aesthetic medical procedures; basic biochemistry of human skins; basic function of aesthetic medical equipment such as HIFU, IPL, Lasers, and RF		
ICGN 140	Food Energy for Health	2
Prerequisites: None Basic chemistry and functions of energy yielding nutrients; Understand food labels and portion sizes. Estimate daily energy from food; Balance energy intake and expenditure		
ICGN 141	Life in the Sea	2
Prerequisites: None Fundamental structures and functions of marine and freshwater life; cell to underwater ecosystem levels of organization; underwater life processes for energy, nutrients, reproduction, growth and development; evolution and biodiversity of underwater life; marine and freshwater biomes; current health and environmental issues under SDG 14 life in the sea; field trip included		
ICGN 142	Energy and the Environment	2
Prerequisites: None		

Various forms of energy and their conversion processes, fossil fuels and renewable energy sources, Environmental consequences associated with each energy source, Energy efficiency and conservation, Future energy technologies		
ICGN 143	Gaia: Life on Earth	2
Prerequisites: None Fundamental structures and functions of life; cell to biosphere levels of organization; life processes for energy, nutrients, reproduction, growth and development, evolution and biodiversity; service learning and field trip opportunities to participate in mitigating current environmental, health or development issues through life science-based solutions		
ICGT 101	Technology-Enhanced Learning: Harnessing AI & Digital Tools for Academic Success	2
Prerequisites: None AI principles and educational impacts, Technology-enhanced creative learning methods, Ethical use and bias awareness in AI applications, Educational technology tool exploration, AI-driven content analysis techniques, AI tool selection and evaluation, Critical assessment of AI-generated materials, Learning personalization with technology		
ICGT 102	Digital Document Management	2
Prerequisites: None Demonstrate formatting and applying consistent styles in a variety of online platforms; preparing and including digital content; construct file management systems for organizing, storing, and searching materials through metadata; Integrating data from spreadsheets, database to create reports		
ICGT 103	Computational Thinking	2
Prerequisites: None Solving problems in a systematic manner; breaking down a problem into a manageable size; extracting the most important elements of the problem; identifying recurring behaviors in the problem; developing solutions; articulating solutions in a way that is simple yet accurate enough for a computer or even a human to follow		
ICGT 104	Tell a Great Story with Data	2
Prerequisites: None Influence decision with compelling narratives constructed from data; the power of storytelling; determining the purpose; understanding the audience; planning plotlines; creating narrative structures; developing the data story; ethical considerations in data storytelling		

ICGT 105	No-Code Application Development	2
Prerequisites: None Creating software applications without needing to write code; common features of no-code platforms; strategies for choosing no-code platforms; basics of user-friendly interface design, workflow logic, and data storage; using templates and plugins to simplify the development, testing and revising applications; online resources and support communities for further learning outside the classroom		
ICGT 106	Data and Spreadsheets	2
Prerequisites: None Demonstrating proficiency in using lists, function, formulas, filters; importing and transforming socio-economic and/or science-related data from the internet or other databases; providing information to other programs through embedded or link objects; illustrating findings through charts, map charts, conditional formatting, and sparklines		
ICLL 102	Skills for a Digital World	2
Prerequisites: None Twenty-first century skills for digital economy through learning or training activities in various topics including e-Commerce, Blockchain technology, and data science, or other selected activities approved by the academic advisor and Curriculum Administrative Committee		

Intercultural & Global Awareness Literacy

ICGH 107	Contemporary Art and Visual Culture	4
Prerequisites: None Focusing on current issues in society as reflected in the new media utilized in art today; an analysis of images and group discussions regarding social and historical contexts of contemporary art; creative thinking skills; effects of globalization on the visual world; connections between global and local issues; an investigation of broader social and cultural matters such as ideology, gender, race, and ethnicity		
ICGH 109	Creative Thinking Through Art and Design	4
Prerequisites: None Combining hands-on studio experiences with demonstrations, lectures and discussions; developing creativity and gaining confidence in communicating one's own unique vision; exploring a variety of art and design mediums; understanding the elements of the visual language; implementing the creative process and creative thinking to develop individual solutions to open-ended problems		

ICGH 110	Drawing as Visual Analysis	4
Prerequisites: None Developing creativity and cognitive learning skills; utilizing visual communication, design and art principles; mark making; observation, analysis, record, representational plant and still life forms; practice, application, techniques for conventional pencil drawing tools: shape, form, perspective, lines, shading, value, negative space, texture, composition; observation; scientific illustration, realistic representational observation		
ICGH 115	Cinematic Language and Applications	4
Prerequisites: None An introduction, practice and an application of languages to critical thinking and analysis; examining key film languages and textual examples, including narrative theories; genre, film theories; an analysis of key film texts; the development of skills in research, writing and analytical thinking; applied knowledge to creative works; the presentation of original ideas and reflection on the craft approach		
ICGH 116	World Cinemas	4
Prerequisites: None An introduction, practice and an application of languages to critical thinking and analysis of key world cinema texts; principal critical methods and theoretical debates of film theory; theoretical perspectives including structuralism, semiology, Marxism, feminism, psychoanalysis, post-structuralism, and cultural studies; questions of narrative and narration, realism, formalism, modernism, postmodernism, postcolonialism, gender, sexuality, and ideology		
ICGH 117	Drawing as Creative Expression	4
Prerequisites: None Develop creativity and cognitive learning; utilize visual communication, design and art principles; experience multiple tools, techniques, medium, experimental mark making; research, analysis, observation, gesture, principles and elements of design and composition; examine, analyze, observe and reinterpret the human figure, plant and still life forms; research, interpret, evaluate, analyses contemporary artists; personal evaluation; personal expression		
ICGH 118	Photography Visualizing in the Digital Age	4
Prerequisites: None Basic skills and aesthetic principles of photography, how the camera works, types of cameras and digital image capture, techniques in taking pictures, in camera editing, specialized forms of photography, simple editing adjustments, the aesthetics of picture taking		

ICGH 120	Thai and ASEAN Cinema	4
Prerequisites: None An introduction, practice and an application of languages to critical thinking and analysis of Thai and ASEAN film texts; examine key film languages and textual examples, including narrative theories; genre, film theories; an analysis of key film texts; the development of skills in research, writing and analytical thinking		
ICGH 124	Life Drawing and Anatomy	4
Prerequisites: None An introduction, practice and application of observation drawing to record the human form; including key principles of composition, gesture and observation drawing techniques and design skills for static, gesture and motion poses; understanding record and identifying the anatomical make-up of the human form in muscles and skeletons; technical proficiency with suitable media for observation drawing; studio practice; hand-drawing from observations		
ICGH 128	Internet Celebrity, Culture and the Media	4
Prerequisites: None An examination of the Internet Celebrity phenomenon and the emerging online culture; focusing on the circulation of social media texts and images associated with the Internet Celebrity; i.e. bloggers, influencers, content creators, the construction of their practices, self-branding techniques, emphasizing on the discourse of labour, the impacts, the influences of cultural trends, and the ethical issues; encouraging students to draw on an online creative work in contemporary media culture		
ICGH 130	The Logic Lab: Crafting Coherent Arguments	2
Prerequisites: None Introducing comprehensively formal and symbolic logic, by focusing primarily on categorical logic and truth functions, fundamental principles of logical reasoning with the goal of gaining a solid understanding of analyzing basic arguments, translating propositions, and evaluating truth-values		
ICGH 132	The Rise and Fall of Ancient Athens	2
Prerequisites: None Inquiring into the historical, philosophical and social circumstances involving the establishment, rapid growth, and eventual demise of the city state of Athens in the Archaic and Classical Periods of Ancient Greece		
ICGH 135	The Horror Film	2
Prerequisites: None		

Investigating the horror film as one of the earliest and most notable cinematic genres, by considering its historical development with examples from both Western and International cinema and by examining the most iconic themes of horror across the ages		
ICGH 137	Apocalypse Now, or Never, or Maybe?	2
Prerequisites: None Pondering the changes of the past two hundred years, especially when it comes to life expectancy, health, and standards of living, and examining in this light the evidence we have for thinking that we are living on the brink of disaster; considering the psychological dimension to our dissatisfactions; discussing the major demographical changes we are currently undergoing; exploring questions around resource shortages, and food supplies; reflecting on our energy needs and realistic ways of meeting them, as well as the uses, dangers, and fears around artificial materials like plastics; exploring the complex questions we face around global warming		
ICGH 139	Spirituality, Sustainability, Ecosystems	2
Prerequisites: None Spirituality's Sustainability Implications for Ecosystems: Bio-diversity, eco-justice, environmental ethics, environmental justice, faiths, spirituality, religious diversity, social equity, social justice, ecosystems, ecosystemic balance, (non-)anthropocentrism		
ICGH 141	SPQR—Glimpses of Rome	2
Prerequisites: None Imagining Rome as it came to be in its “golden age” under the emperors Trajan and Hadrian; reflecting on slavery in Rome, the meaning of bread and games, charioteers and gladiators; contemplating the ways of traditional Roman religion; returning to the founding of the city, to understand how it all began; surveying the end of Roman monarchy and the conflicts between the social classes (Secession of the Plebs); examining Rome’s wars with invading Gauls and with the Carthaginians; reviewing the Roman constitution in its heyday, as described by Polybius; tracing the descent into social turmoil and civil war from the Gracchi brothers to the permanent dictatorship of Julius Caesar; sketching out the transition to the principate under Augustus and the Roman imperial period

Prerequisites: None Exploration of the impact of health literacy on shopping behavior; coverage of health literacy principles, consumer psychology, and marketing's role; learning through stimulus case studies to promote informed consumer choices		

ICLL 101	Professional Development	2
Prerequisites: None Professional skills for 21st century workplace through learning or training activities in various topics including innovation management, start-up business, agile workplace or other selected professional development activities approved by the academic advisor and Curriculum Administrative Committee		

Mahidol University
International College

Specific Courses

Note I: Students are able to take BBA courses only if they have met the following requirements:

1. Passed ICGC 104 English Studies I: The Writer's Toolkit with “S” grade or being placed in the English course level higher than ICGC 104 English Studies I: The Writer's Toolkit.
2. Passed ICMA 100 Foundation Mathematics with “S” grade or the placement Test.

Note II: ICMB 450 Strategic Management is restricted for students who have completed at least 124 credits.

Core Courses

ICMB 150	Introduction to Programming and Business Applications	2
Prerequisite: None Introductory course to programming concepts and processes in incorporating related technologies from various platforms to build business applications; mechanisms in computer programming, such as variables, objects, operators, flow control, loops, functions, and data processing; using application programming interfaces (API); business applications that integrate with various platforms for information collection, information sharing, and information processing for businesses		
ICMB 151	Business Mathematics	2
Prerequisite: None Review of algebra; logarithmic and exponential functions; matrix algebra; differential calculus; integral calculus; unconstrained optimization; constrained optimization with equality constraint (Lagrangean method)		
ICMB 152	Business Statistics	4
Prerequisite: ICMB 151 Business Mathematics Introduction to theories and applications of statistics in business using computer software. Descriptive statistical measures of discrete and continuous probability distributions. Inferential statistical analyses through sampling distributions, point and interval estimations, and hypothesis testing. Basic of analysis of variance and linear regression		
ICMB 253	Microeconomics	4

Prerequisite: ICMB 151 Business Mathematics An introduction to microeconomics principles; economic scarcity; opportunity cost; demand and supply; elasticity; consumer surplus; producer surplus; consumer behavior; producer behavior; production costs; pricing theory; market structure		
ICMB 254	Macroeconomics	4
Prerequisite: ICMB 151 Business Mathematics Data of macroeconomics; the Gross Domestic Product (GDP); the Consumer Price Index (CPI), multiplier; unemployment; inflation; money market, interest rate; fiscal and monetary policies; IS-LM Model; AS-AD Model; international trade, exchange rate		
ICMB 255	Management of Business Information	4
Prerequisite: None Management of business data and models, connecting, cleaning, and preparing data. Building data models, financial models, scenario manager, goal seek, data tables and data analysis expressions (DAX). Analyzing data using pivot tables, power pivot, calculated columns and calculated measures. Visualization of data using sparklines, slicers, visualizations, dashboards and storyboards		
ICMB 256	Principles of Financial Accounting	4
Prerequisite: None An introductory accounting course to understand the impact of business transactions on organizations; Knowledge of basic accounting principles and techniques; The ability to use and provide the variety of information to stakeholder including developing, presenting, understanding financial accounting information, analyzing results and making decisions		
ICMB 257	Business Finance for Entrepreneurs	4
Prerequisite: ICMB 256 Principles of Financial Accounting An overview of the principles and practices of business finance including time value of money, the valuation of financial assets, capital budgeting techniques, risk and return calculations, methodologies for determining the cost of capital, an estimation and forecasting of cash flows, and the project evaluation		
ICMB 258	Business Communication	4
Prerequisite: None Introduction to Business Communication; Principles of Effective Communication; Application of Communication Principles in Business Analysis; Written Communication in Formal and Informal Settings; Oral Communication Skills; Understanding Communication Processes in Business; Practical		

Business Writing Assignments; Business Presentation Skills; Professional Development Topics: Career Planning, Networking, Job Searching; Resume Preparation Techniques; Job Application Strategies; Interviewing Techniques		
ICMB 259	Principles of Marketing	4
Prerequisite: None Marketing concepts, the role of marketing in organization, creating-communicating-delivering-exchanging product and services that having value to customers and the society; customer needs and wants, consumer decision making process, marketing information and research, market segmentation-targeting-positioning, product development and life cycle management; pricing, channel management, marketing communication, customer relationship management		
ICMB 260	Management and Organizational Behavior	4
Prerequisite: None A study on the role of manager in an organization, emphasis on the understanding of behavioral and administrative theories and concepts needed to succeed in the modern organization. Topics includes organization structure, organizational changes, motivations, leadership, managing work and team, effective communication, principal conflict resolution management and environment, social and governance (ESG) for business sustainability growth		
ICMB 261	Human Resources Management	4
Prerequisite: None Disruptive change in work and employment, managing human resources strategically, ethical and social responsibility of HRM, people analytics and HR metrics, strategic workforce planning, job and workplace design, recruiting and selecting talents, assessing and improving employee performance, training and employee development, compensating human resources, enhancing employee relations, separating and retaining employees		
ICMB 262	International Business Management	4
Prerequisite: ICMB 260 Management and Organizational Behavior An examination of International business operations, organization structure, finance and accounting systems, taxation systems, marketing strategy, culture differences, global trade, capital markets and economic growth, the impact of regional trading blocs, corporate global competitiveness, and global strategies		
ICMB 350	Business Law	4

Prerequisite: None Introduction to Laws; Distinction between Law, Morality and Religion in different jurisdictions; Digital Laws; Contract Law; Company and Partnership Laws; Agency Laws and Employment Laws; Intellectual Property Laws; Resources and IT tools; Case studies to be applied in the business context for sustainable practices		
ICMB 351	Business Ethics and Sustainability	4
Prerequisite: ICMB 260 Management and Organizational Behavior, ICMB 350 Business Law An understanding, analysis of ethical concepts, and the implications of ethics in business decisions under different social and other business-related environments, an application of ethical principles to ethical issues within the organization and the external environment		
ICMB 352	Management Science	4
Prerequisite: ICMB 152 Business Statistics, ICMB 255 Management of Business Information An application of quantitative analysis techniques, linear programming, network models, decision analysis, business simulation		
ICMB 353	Operations Management	4
Prerequisite: ICMB 152 Business Statistics, ICMB 255 Management of Business Information Modern concepts, models and tools for planning, organizing, staffing, leading and controlling the production, distributing of goods and services		
ICMB 450	Strategic Management	4
Prerequisite: completed at least 124 credits A study of strategic management; fundamental element of the organizational management strategy; process and frameworks of strategic management; an examination of both internal and external environment; competitive advantage; an identification of organization's mission, objective, policies and business strategy; foundation of a strategic analysis including the industry and company analysis; strategy formulation and implementation		

Required Courses

ICMF 331	Financial Management	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs Goals of financial management; financial markets and yields; the concept of corporate governance in financial management; corporate valuation models; methods in financial statement analysis;		

working capital management; long-term financial planning and forecasting; capital structure theories and implications; distributions to shareholders		
ICMF 332	Financial Markets	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs A study of financial markets focusing on international financial systems, market-institution links, financial instrument dynamics, and regulatory frameworks; Fundamental knowledge of financial instruments including bonds, equities, foreign exchanges, commodities, derivatives, and cryptocurrencies; The role of interest rate in the global monetary system; Financial institutions and central bank structures; Application of financial formulas or models to quantitatively and qualitatively evaluate financial markets and instruments		
ICMF 333	Investment Analysis and Portfolio Management	4
Prerequisites: ICMF 331 Financial Management and ICMF 332 Financial Markets An overview of investment-related concepts, including types of asset classes, asset allocation, and risk and return analysis; portfolio construction techniques; theories and practical application of mutual funds and exchange-traded funds (ETFs) in investment portfolios; investment strategies

Prerequisites: ICMB 257 Business Finance for Entrepreneurs An in-depth study of accounting theory, concepts and practices particularly in the areas of liabilities and shareholders' equity; analysis of accounting changes and estimates; computation of earnings per share (EPS)		
ICMF 343	Business Taxation	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs Personal income tax for small businesses; corporate income tax; value-added tax; withholding tax; tax accounting; tax-related accounts on financial statements; tax planning		
ICMF 344	Cost Analysis for Business Decisions	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs Cost concepts and terminology; cost behavior analysis; costing systems; uses of cost analysis principles and techniques for decision-making purposes		
ICMF 345	Fintech Innovations and Applications	4
Prerequisites: ICMF 332 Financial Markets Financial technologies with a focus on blockchain, cryptocurrencies, and digital finance; Mechanisms and operations of blockchain technology; Economic, security, and regulatory aspects of digital currencies; Development of critical thinking and problem-solving skills in a digital financial environment by engaging in practical applications within real-world scenarios		
ICMF 346	Machine Learning in Finance	4
Prerequisites: ICMB 150 Introduction to Programming and Business Applications and ICMF 331 Financial Management A finance course focusing on the intersection of machine learning (ML) and finance; an application of ML techniques to solve complex financial problems; fundamentals of machine learning, including supervised and unsupervised learning methods, neural networks, and deep learning, a utilization of machine learning concepts in various financial contexts such as algorithmic trading, credit scoring, fraud detection, and portfolio management; a combination of lectures, case studies, and hands-on machine learning project		

ICMF 347	Sustainable Finance and Investment	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs Concepts in corporate sustainability; regulatory landscape on corporate sustainability; role of capital market in related to sustainability; sustainability data and standards for disclosures and performance assessment; value chain and stakeholder analysis; sustainable-linked finance; integrating sustainability information in corporate valuation; sustainability trends in capital markets		
ICMF 348	IT Auditing for Risk Assurance	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs IT audit fundamentals, compliance regulations, key standards and frameworks; performing IT audits through practical scenarios; developing reports and presenting audit findings; ethics in IT auditing		
ICMF 441	Corporate and Project Valuations	4
Prerequisites: ICMF 331 Financial Management and ICMF 332 Financial Markets Valuation techniques in corporate and project valuation processes, including discounted cash flow (DCF), multiples analysis, precedent transactions analysis, and risk assessment; evaluation of strengths and limitations of different valuation approaches; conducting a feasibility analysis; constructing comprehensive valuation models and making informed recommendations to support strategic business decisions; exploring the roles of financial advisory and investment banking through case studies, guest speakers, and/or field trips		
ICMF 442	Financial Theory	4
Prerequisites: ICMF 331 Financial Management Financial and disruptive innovation theories; application of financial theory under disruptive environment to business decision; decisions under the certainty and uncertainty with the expected utility framework; classical financial theories such as capital structure, capital budgeting, dividend policy, modern portfolio theories with the disruptive innovation concept; MATLAB programming for finance		
ICMF 443	Case Studies in Finance and Accounting	4
Prerequisites: 4 th Year Status A finance course which offers an in-depth exploration of finance and accounting through the lens of case studies, focusing on real-world applications and problem-solving; demonstration of business and financial acumen through a comprehensive understanding of the challenges and strategies in contemporary financial environments; a strong emphasis on critical thinking,		

analytical skills, and the practical application of finance and accounting theories to foster informed decision-making in business scenarios; group works on case analysis, discussion, and presentation to justify proposed solutions in the perspectives of related stakeholders		
ICMF 444	Special Topics in Finance	4
Prerequisites: - A study of contemporary issues, industry trends, theories, and best practices in finance in response to the changing business environment		
ICBE 313	Business Econometrics	4
Prerequisites: ICMB 150 Introduction to Programming and Business Applications and ICMB 152 Business Statistics An introduction to the field of econometrics; simple regression analysis; multiple regression analysis; hypothesis testing, multicollinearity, heteroskedasticity; specification analysis and model selection; programming application for econometrics		
ICBE 421	Data Analytics for Economics and Finance	4
Prerequisites: ICMB 150 Introduction to Programming and Business Applications and ICMB 152 Business Statistics The theoretical principles of statistics with a focus on practical applications in economic and finance settings; data sampling and cleaning; descriptive statistics for data exploration; techniques of communicating the results; data transformations and dimensionality reduction; prediction-based machine learning tools, regression, classification, clustering; programming application for data analytics		
ICMI 450	International Finance and Risk Management for International Business	4
Prerequisites: ICMB 257 Business Finance for Entrepreneurs and ICMB 262 International Business Management Studies of international finance from the standpoint of multinational company; an introduction to the derivatives used for multinational company; investment in foreign operation; management of funds and financing strategies for foreign operation; examination of risk in international business; identification of strategies to identify, assess, manage, and mitigate risk associate with global business operation, management of funds		

Practical Training Course

ICMB 451	Practical Business Training – Off Campus	8
Prerequisites: completed at least 124 credits An internship program in off-campus organizations providing practical business experience for MUIC students; applications of business knowledge and skills learned in class; a summative evaluation of students' teamwork, analytical thinking skills, innovativeness, ethics and sustainability, and management knowledge and skills		
ICMB 452	Innovation, Entrepreneurship and New Business Development	8
Prerequisites: completed at least 124 credits Study of entrepreneurial business strategy and innovation; development of business plan; new business ideas generation; prototype development; new business model; vision and mission; organizational plan; marketing plan; human resource plan; financial plan, risk management plan; action plan
